Dear Mr Mobley,

I would like to thank you dearly for giving me the opportunity to do work experience with team LSD. You all made me feel so welcome and so comfortable that these two weeks flew by so quickly that I didn't even have time to thank you all properly.

I am writing to express my thanks to you for allowing me to carry out my work experience with you earlier this month. I have always wanted to work in a business environment so was really pleased to be given the opportunity.

In the two weeks I was lucky enough to work in lots of different areas, with many different people. The work was interesting and I was very keen to learn more. I felt that I have learnt a lot from this experience that will help me in my working life. I have come back to school and working hard now to get good grades so that I can achieve my ambition.

Once again many thanks for your help and support over my work experience period. I know that it is not easy to have students in the workplace and I hope that the work that I carried out was to a good standard. And a special thank you for my first discover scuba lesson, it was really and I really enjoyed myself.

Yours sincerely,

Ujala Masood
